#### INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of NATIVE AMERICAN HERITAGE ASSOCIATION

We have audited the accompanying financial statements of Native American Heritage Association (a non-profit organization), which comprise the statements of financial position as of August 31, 2021 and 2020, and the related statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

## Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Native American Heritage Association as of August 31, 2021 and 2020, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### 1. Summary of significant accounting policies:

A summary of the Organization's significant accounting policies is presented below to assist the reader in evaluating the Organization's financial statements.

Nature of business: Native American Heritage Association is a not-for-profit corporation dedicated to helping Native Americans living on and off the tribal reservations in South Dakota and Wyoming. The Organization is headquartered in Rapid City, South Dakota, with certain administrative and fundraising activities carried out at a branch office in Front Royal, Virginia. Virtually all revenue of the Organization is obtained by soliciting monetary and clothing contributions from the general public through direct mail, as well as from food donations by Feeding America and Orphan Grain Train and donated goods from Good 360, BluSource, NAEIR, Walmart, and Feed the Children.

The Organization's primary program is to assist Native Americans on tribal reservations through the distribution of donated food, clothing, and other items.

Cash and cash equivalents: For financial statement purposes, the Organization considers all highly liquid investments with an original maturity of three months or less to be cash equivalents. Cash is held in bank deposit accounts, which, at times, exceed federally insured limits. At August 31, 2021 and 2020, there existed cash deposits of approximately \$3,774,051 and \$2,174,395 in excess of federally insured limits, respectively. The Organization has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk on cash.

Contributed Inventory: The Organization receives contributed perishable and nonperishable food items from Feeding America. The Organization pays an administrative fee to cover the costs of handling the food; however, the product itself is considered to be donated and is recorded as inventory and contribution revenue at the time of shipment. The food is distributed on the tribal reservations shortly after receipt. The value of the food inventory for the years ended August 31, 2021 and 2020 was \$0 and \$0, respectively. Distribution expense is recorded at the time the food is distributed. For the years ended August 31, 2021 and 2020, the fair value of the donated food was recorded at \$1.79 and \$1.49 per pound, respectively. This value was derived from a study performed by the independent auditors of Feeding America that determined the average wholesale value of one pound of donated product. Wholesale value is considered to approximate fair market value due to the large quantities of donated food received.

#### 1. Summary of significant accounting policies (continued):

The Organization receives contributed clothing from the general public. The clothing is distributed on the tribal reservations shortly after receipt. The value of the clothing inventory for the years ended August 31, 2021 and 2020 was \$0 and \$0, respectively. For the years ended August 31, 2021 and 2020, the Organization recorded the fair market value of the clothing as contribution revenue and distribution expense at an estimated \$14.72 and \$14.72 per pound,

The Organization receives other contributed items from Good 360, BluSource, NAEIR, Walmart, Feed the Children, and Amazon, such as clothing, personal care/cosmetics, household items, and furniture. The Organization pays an administrative fee to cover the cost of handling, however the products are considered donated and are recorded as inventory and contribution revenue at the time of shipment. The items are distributed on the tribal reservations shortly after receipt. The value of the inventory items for the years ended August 31, 2021 and 2020 was \$9,405,334 and \$8,030,694 respectively. Distribution expense is recorded at the time the items are distributed. The fair value of the donated items is determined by the donor organization to Good 360, BluSource, NAEIR, Walmart, and Feed The Children, who then pass the donation to the Organization.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts and disclosures reported in the financial statements. Actual results could differ from those estimates.

**Property and depreciation:** Property and equipment are recorded at cost or, if donated, at the approximate fair value at the date of donation. All assets over \$1,000 with an estimated useful life exceeding one year are capitalized. Depreciation is calculated using the straight-line method over the estimated useful lives of the respective assets. Maintenance and repairs are charged to expense as incurred; major renewals and betterments are capitalized. When items of property or equipment are sold or retired, the related cost and accumulated depreciation are removed from the accounts and any gain or loss is included in income.

Recognition of revenue and expenses: The financial statements of the Organization are presented on the accrual basis of accounting.

Advertising costs: The Organization expenses all advertising costs as they are incurred.

## Notes to Financial Statements August 31, 2021 and 2020

## 1. Summary of significant accounting policies (continued):

Functional expenses: The cost of providing program and other activities has been summarized on a functional basis in the Statements of Activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited. Such allocations have been made by management on an equitable basis. The Organization conducts no joint activities. The expenses that are allocated include the following:

<u>Expense</u>	Methodology

#### 1. Summary of significant accounting policies (continued):

Contributions: The Organization records contributions in accordance with FASB Codification 958-605-25. Accordingly, contributions received are recorded as support without donor restrictions or support with donor restrictions, depending on the existence and/or nature of any donor restrictions. Contributions that are restricted by the donor are reported as an increase in net assets without donor restrictions if the restriction expires in the reporting period in which the contribution is recognized. All other donor restricted contributions are reported as an increase in net assets with donor restrictions, depending on the nature of restriction. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statements of activities as net assets released from restrictions. As all material used in soliciting contributions gives the Organization variance power to use the contribution "for the most critical need at the time received," all contribution revenue is considered to be without donor restrictions.

Income taxes: The Organization implemented the accounting guidance for uncertainty in income taxes using the provisions of financial Accounting Standards Board (FASB) ASC 740, Income Taxes. Using that guidance, tax positions initially need to be recognized in the financial statements when it is more-likely-than-not the position will be sustained upon examination by tax authorities. As of August 31, 2021 and 2020, the Organization had no uncertain tax positions that qualify for either recognition or disclosure in the financial statements. The Organization is subject to income tax on any unrelated business net income. At August 31, 2021 and 2020 the Organization had an outstanding liability for securities purchased on margin. Therefore, the Organization incurred unrelated debt-financed income which is subject to income tax. The Organization incurred \$0 and \$0 in unrelated business income tax for the years ended August 31, 2021 and 2020, respectively. The federal income tax returns of the Organization for 2021, 2020, and 2019 are subject to examination by the IRS, generally for three years after they were filed.

Concentrations: The Organization receives a significant portion of its contributions from Good360, NAEIR, BluSource, Amazon, Feeding America and Orphan Grain Train, the loss of which could have an impact on the Organization.

#### 1. Summary of significant accounting policies (continued):

New Accounting Pronouncement: On August 18, 2016, FASB issued ASU 2016-14, Not-for-Profit Entities (Topic 958) – Presentation of Financial Statements of Not-for-Profit Entities. The update addresses the complexity and understandability of net asset classification, deficiencies in information about liquidity and availability of resources, and the lack of consistency in type of information provided about expenses and investment return. The Organization has adjusted the presentation of these statements accordingly. The ASU has been applied retrospectively to all periods presented.

#### 2. Restrictions on assets:

In accordance with FASB Codification 958, Not-for-Profit Entities, the Organization reports information regarding its financial position and activities according to two classes of net assets: net assets without donor restrictions and net assets with donor restrictions.

The Organization reports gifts of cash and other assets as restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statement of activities as net assets released from restrictions.

When a donor stipulated restriction expires in the same reporting period for which the support was received, the support is shown as revenue without donor restrictions.

The Organization received a bequest of \$1,084,390 in July 2019, and an additional \$70,899 in April and May 2020, with a donor restriction that it be added to the Organization's endowment fund, and the interest generated by the principal is to be used for the Organization's programs. As the Organization has no endowment fund, management has invested the principal balance in marketable securities and uses any interest for their programs.

Net assets with donor restrictions totaled \$1,155,289 and \$1,155,289 at August 31, 2021 and 2020, respecively.

#### 3. Property and equipment:

Major classifications of property and equipment and their respective depreciable lives at August 31, 2021 and 2020 are summarized below:

	<u>2021</u>	<u>2020</u>
Building and leasehold improvements (27-35 years)	\$ 1,693,554	\$ 1,693,554
Furniture and equipment (3-10 years)	359,548	359,548
Vehicles (5 years)	920,463	920,463
Website development (5 years)	24,755	24,755
Land	80,305	80,305
	3,078,625	3,078,625
Less: accumulated depreciation	(1,733,961)	(1,629,157)
Net property and equipment	\$ 1,344,664	\$ 1,449,468

#### 4. Pension Plan:

Effective January 1, 2002, the Organization adopted a SEP IRA pension plan, whereby full-time employees with a minimum employment period of two years, and who have attained the age of 21 are eligible for the plan. Effective for 2007, the Organization contributes 25% of each eligible employee's wages to the plan. For the years ended August 31, 2021 and 2020, the Organization contributed \$138,477 and \$120,773, respectively. The plan follows the calendar year.

#### 5. Margin Loan:

In 2012, the Organization opened a margin account with Wells Fargo Advisors to purchase securities. The securities purchased on margin are considered collateral for the margin loan. The fair value of securities held in margin were \$8,878,450 and \$7,511,556 as of August 31, 2021 and 2020, respectively.

The amount of the loan changes daily when securities are purchased and sold. The rate of interest charged is calculated monthly, based on the average daily debit balance in the margin account. The interest rates at August 31, 2021 and 2020 were 2.75% and 2.75%, respectively. Management, based on income information from Wells Fargo Advisors, has calculated the return/(losses) on investments for the years ended August 31, 2021 and 2020, to be approximately 19.4% and 21.8%, respectively.

The Fair Value Measurements Topic of the FASB Accounting Standards Codification establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are briefly described below:

Level 1	Inputs t	the	valuation	methodology	are	unadjusted
---------	----------	-----	-----------	-------------	-----	------------

quoted prices for identical assets or liabilities in active

markets.

Level 2 Inputs to the valuation methodology include quoted

prices for similar assets and liabilities in active markets, and inputs that are observable for the assets or liability, either directly or indirectly, for substantially the full

term of the financial instrument.

Level 3 Inputs to the valuation methodology are unobservable

and significant to the fair value measurement.

The fair values of all of the marketable securities as of August 31, 2021 and 2020 are based on unadjusted, quoted prices in active markets as of the measurement date (often referred to as Level 1 inputs).

#### 7. Lease and Related Party:

On January 10, 2018, the Organization entered into a short-term lease for living space in Fort Lauderdale, Florida from January 25, 2018 through January 24, 2019.
